

## GUARANTEE TOOLS FOR STUDENTS

Students have access to various guarantee instruments that they can use to report more or less serious problems. It is important to understand that, depending on the type of problem, it is necessary to resort to a different institutional figure, as explained in the guidelines for the use of the Guarantor ([document in Italian](#)).

In the event of a serious violation of the rights set out in the [Charter of Students' Rights and Duties \(document in Italian\)](#), students can contact the [Student Ombudsperson](#), who has the right to carry out investigations and report to the Dean of the Faculty who, depending on the specific case, will take the appropriate action. Students have the right, at their request, to anonymity and their name, like any other element capable of identifying them, is excluded from the right of access to administrative documents.

The Students Ombudsman in the Faculty of Mathematical, Physical and Natural Sciences is Prof.ssa Antonella Dalla Cort ([garantesmfn@uniroma1.it](mailto:garantesmfn@uniroma1.it)).

As a rule, students address their representatives in the Teaching Area Council: , who are for the academic year 2021-22
