

Gender balance working group

The PhD students in Physics have formed a working group to support the work on gender balance in the Physics Department. The goals of the working group are to collect statistics, discuss challenges and propose changes to improve the gender balance and inclusivity of the Department. We organize monthly meetings with researchers and professors in the Physics Department to exchange personal experiences and discuss suggestions. We publish news on our website <https://sites.google.com/uniroma1.it/gender-and-diversity-physics/home>. If you are interested in receiving further communication about this project, please subscribe to the gipsi (Gender and Diversity in Physics at Sapienza) mailing list <https://lists2.roma1.infn.it/mailman/listinfo/gipsi>. If you are interested in being part of the gender balance working group write us an e-mail at gender-balance-physics-working-group@uniroma1.it.
